

Consumer Website Button

To allow your customers to be able to apply for financing, you can send them an invitation through your Merchant Portal or can place a button option on your website.

URL Link Option

To allow a customer to click on a link to apply, you would use the URL:

https://app.momnt.com/widgets/?merchantId=<MERCHANT_UUID>&widget=ConsumerLoanApplicationWizard

We recommend that you set up the link to open in a new window. This will ensure your website tab remains available to your customers and they are able to close the new tab once their invitation request is complete.

For either option, the **<MERCHANT_UUID>** would be replaced with your Merchant UUID provided by the Momnt Merchant Success Team.

Please ensure the placement and title of the link meet the Momnt Merchant Marketing Guidelines.
